

DAAAM publishing series - Manufacturing technology:

1. **Joze Balic:** "Contribution to Integrated Manufacturing", DAAAM Publishing series - Manufacturing Technology, Editor: B. Katalinic, ISBN 3-901-509-03-8, DAAAM International Vienna, Vienna 1999 (Promotion at DAAAM 1999 - Vienna)

2. **Borut Buchmeister:** "English-Slovene Glossary of Terms used in Production Engineering and production Management", DAAAM Publishing Series - Manufacturing technology, Editor: B. Katalinic, ISBN 3-901-509-17-8, DAAAM International Vienna, Vienna 2000 (Promotion at DAAAM 2000 Opatija)

DAAAM International University Book:

3. **Vlado Majstrovic:** "Upravljanje proizvodnjom i projektima - Production and project management", (in Croatian) DAAAM International University Book, Editor: B. Katalinic, ISBN 3-901-509-23-2, DAAAM International Vienna and University Mostar, Mostar - Vienna, 2001 (Promotion at International Conference in Mostar, May 31st, 2001)

4. **Dragan Covic, Vlado Majstorovic, Vojo Visekruna:** "Poslovni sustavi - Business Systems", (in Croatian) DAAAM International University Book, Editor: B. Katalinic, ISBN 3-901-509-22-4, DAAAM International Vienna and University Mostar, Mostar - Vienna, 2001 (Promotion at International Conference in Mostar, May 31st, 2001)

DAAAM Publishing series - Manufacturing technology
Editor: B. Katalinic

Vienna, 1999

Prof. D. Sc. Joze BALIC, Mech. Eng.

Affiliation: University of Maribor, Faculty of Mechanical Engineering.
Position: Professor for Machine tools, Flexible and intelligent manufacturing, head of Laboratory for intelligent manufacturing, head of research group Manufacturing technology and automation, head of research field Production technology and automation in national research board. Projects: 30 scientific and 50 industrial projects in the field of manufacturing and using of evolutionary computing methods. Original scientific papers: 23 scientific papers in Int. journals and 90 papers, presented at Int. Conferences. Citations: 22 citations in SCI International research projects: Phare program: "Development of tool making industry in Slovenia" (DTI 1995-96); INERTIA (13 EU partners involved): Intelligent and Adaptive techniques for the measurement of manufacturing flexibility (SI – GR); "Model of intelligent automated manufacturing system for customer oriented manufacturing" (SI-GR). International associations: vice president of DAAAM International, Vienna, member of scientific committees of several international conferences. Author of scientific monographs: "Contribution to integrated manufacturing" (DAAAM International, Vienna 1999), "Manufacturing system for the third millennium" (CEEPUS network CZ-0103) and several books for students. Patents: "Device for step milling" (SI-20048) and "Workpiece milling method using milling tool by cyclically withdrawing tool from surface of workpiece" (DE 10027526).
